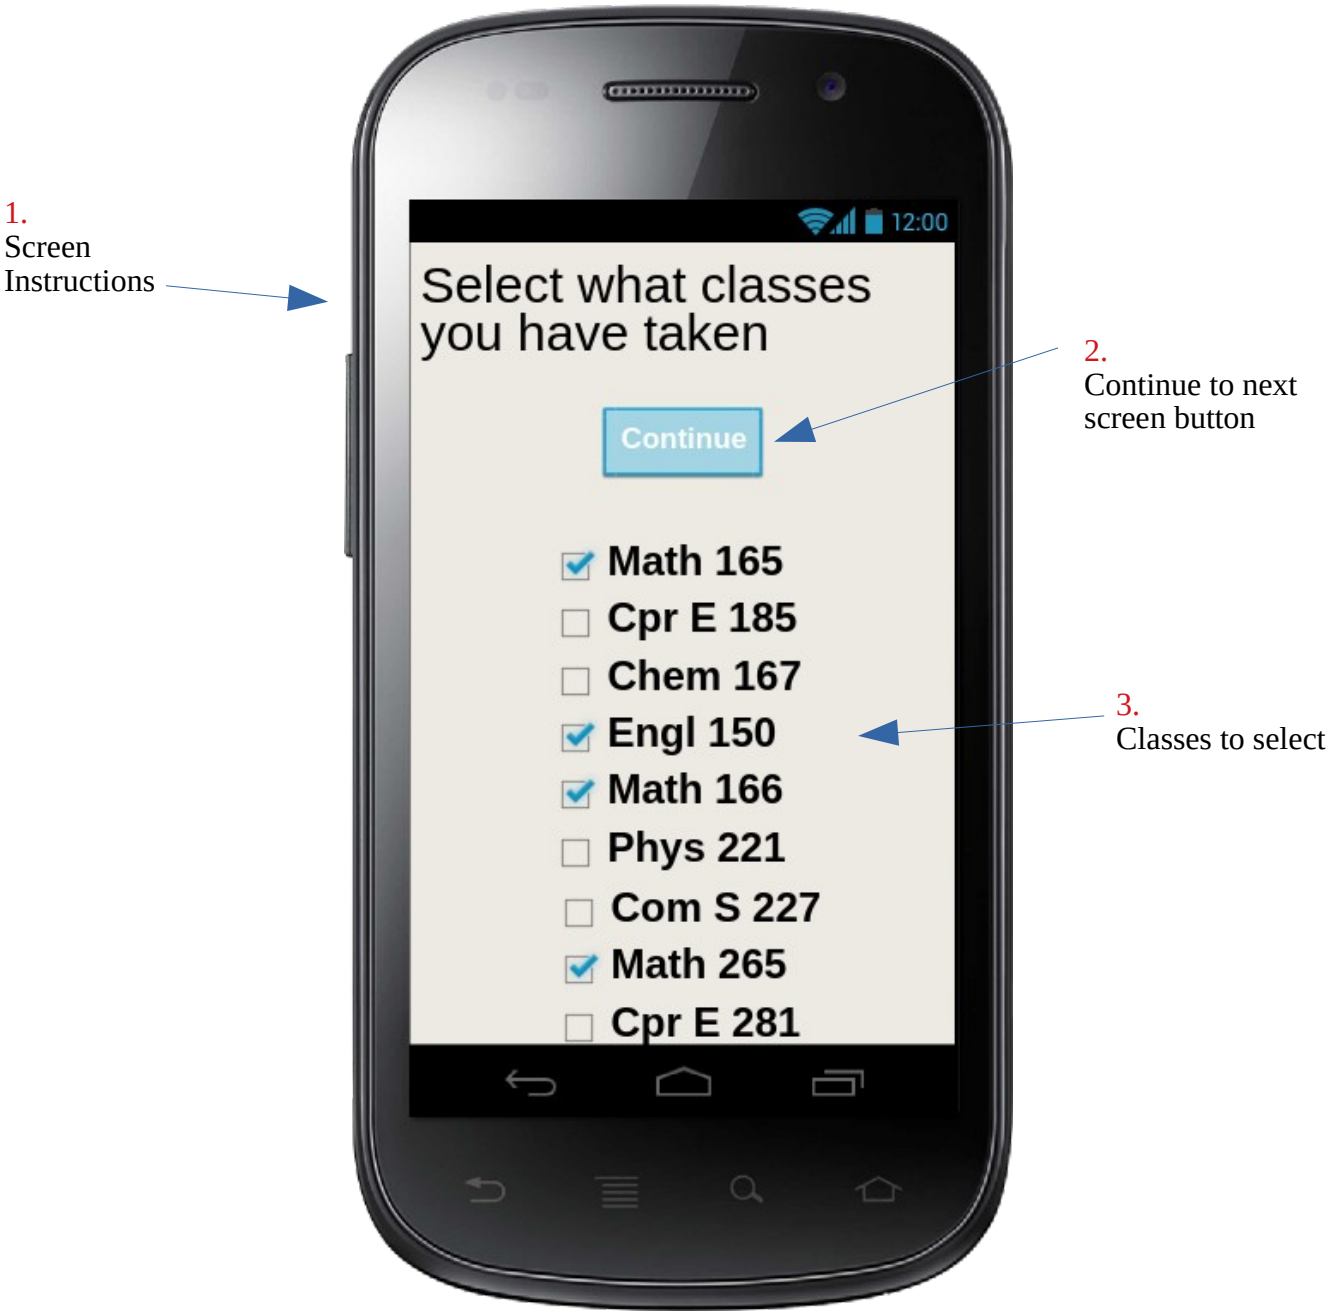
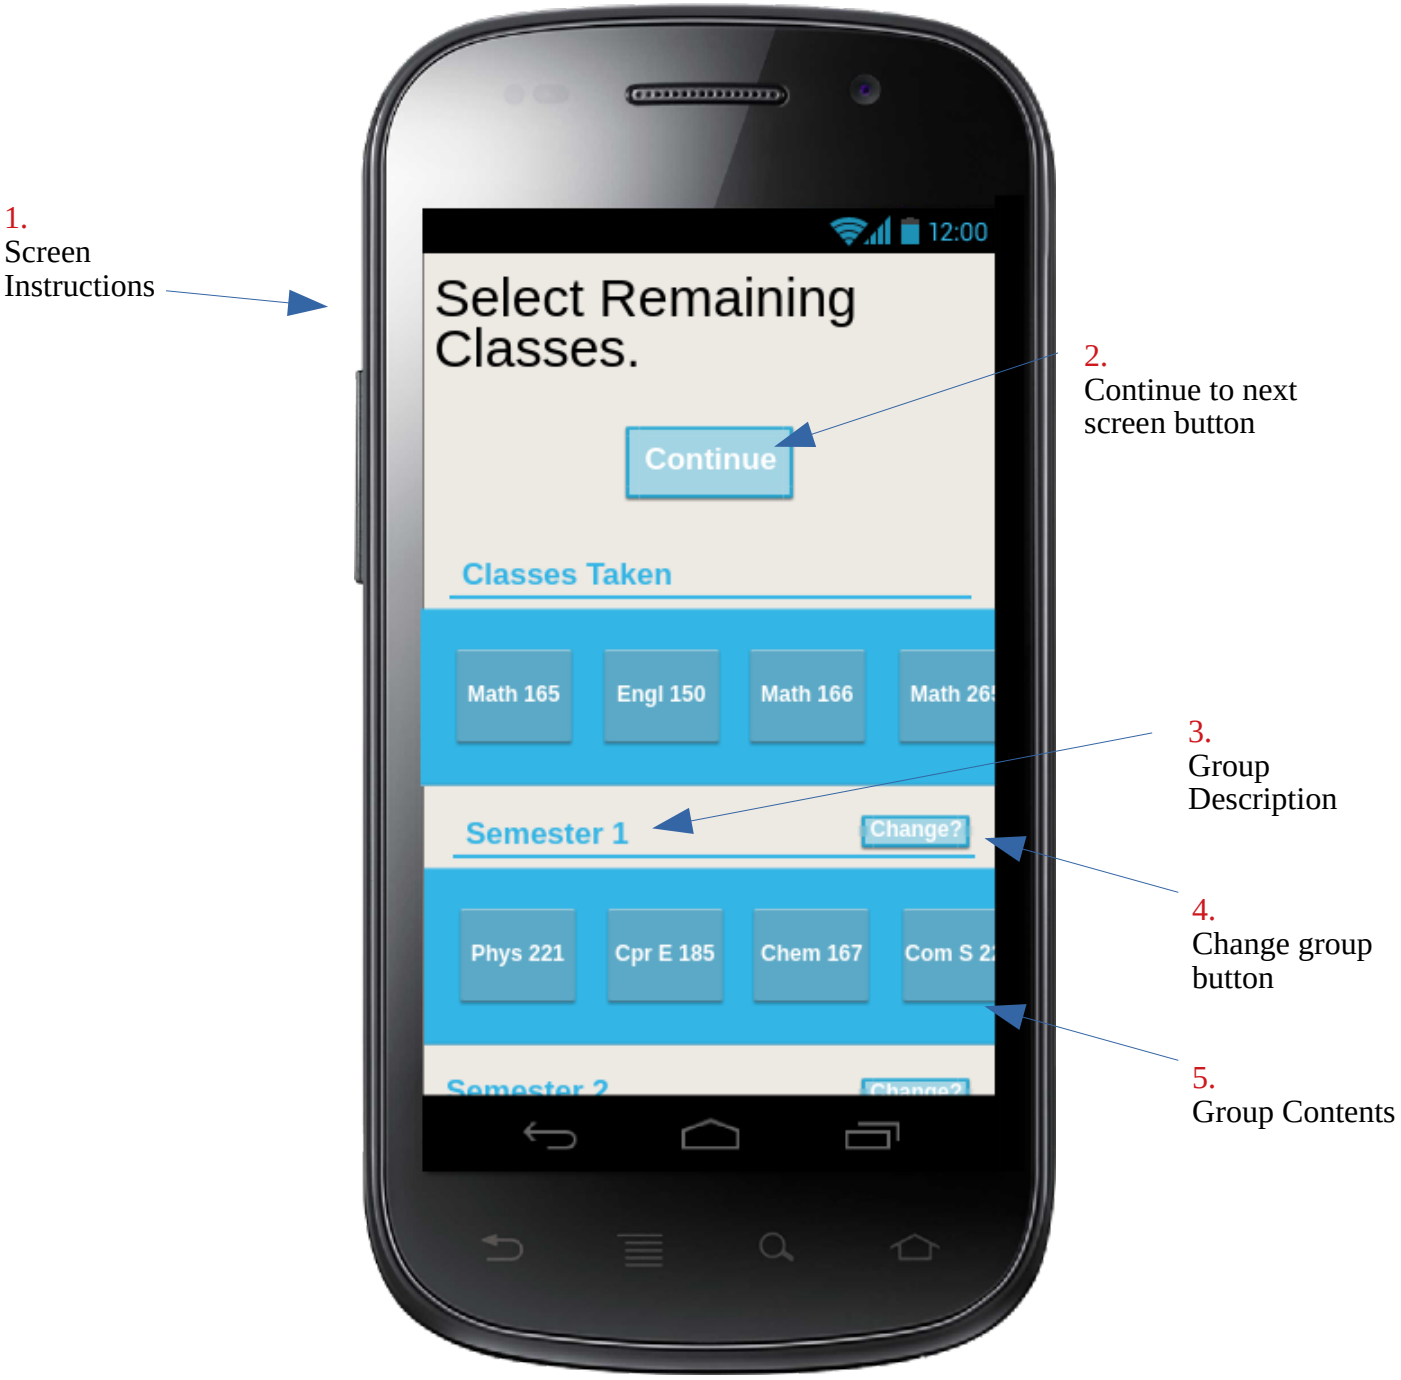
Classes Taken Selection Screen
Arnoldo Montoya-Gamez



This screen will help students select classes they have already taken before starting to make their schedule. These classes will be based off of the major they've chosen.

Item 1 will tell the user what he needs to do. Item 2 is the button that once they're done selecting classes, they can press to continue. Item 3 are the classes they can select, that way better decisions can be made based off the classes they've taken.

Remaining Classes Selection Screen
Arnoldo Montoya-Gamez



This Screen will help students select future classes that they'd like to take.

In order to select the classes, they have to see what screen they'd like to change (3), then they have to push the change button(4), that will take them to a separate screen, once done, all the contents selected, assuming they were valid entries, will show up in the group contents screen (5). Once they believe they're finished, they can click the continue to next screen button (2).
